THE WEEKLY SUN will renew its best efforts as a first-class News and Literary Journal. Every improvement of modern journalism—by which it is distinguished—will be maintained, and such attention be given to its several departments as will insure their continued interest, and whatever may be necessary to render them more complete will not be lost sight of.

Through no other medium can families and individuals in the towns and villages and rural districts of the country be so well supplied with proper literature, and a full knowledge of the world's whole news, from week to week.

MAKE UP CLUBS.

While the WEEKLY SUN is afforded at the low rate of $1 50 per annum to single subscribers, the CLUB rates are still lower, carrying the price down as low as *one dollar* per year where twenty-five copies or more are taken at one post office at a time, viz:

Any postmaster or storekeeper in the county may easily accomplish this among his acquaintances, or any active person, male or female, do the same. The regular diffusion of the light and intelligence which such a journal affords will be a moral and social advantage in any neighborhood.

### TWO CLEVER SAILORS.

In a small, old town built on the seashore, there used to live two sailors named Jack and Joe. They were great friends, and had one boat between them, and went out fishing together.

They were both strong, and brave, and sunburnt. They both liked rum, and both wore loose trousers. And so they never could make out which was the most clever.

"I know the best way to cook mackerel, and herring, and sole," said Jack.

"So do I. And I know the best way to sell them," said Joe.

"So do I," answered Jack, "and I know the best way to catch them."

"So do I," answered Joe. "But what is the use of all this, when we have no ropes for our nets?"

"If we had time we could make some," said Jack.

"If we had money we could buy some" said Joe.

"If we knew where we could borrow some," said Jack.

"If we knew where we could steal some," said Joe.

Just then the bells of the church on the hill began tolling for evening prayers.

"They ring those bells with ropes," said Jack.

"And the ropes are very good," said Joe.

Jack began to smile. Joe began to laugh.

"Shall we go to church, mate to-night" asked Jack.

"And shall we stay there till the last?" asked Joe.

Up the hill went the two sailors. They stopped in the church till the prayers were all over and everybody had gone home.

"Now is our time," said Jack.

"It is our turn now," said Joe.

Off they went to the tower where the bells were hung. Here they found two long, strong, thick ropes.

"One for me," cried Jack.

"And one for me," cried Joe.

Up the ropes climbed the two clever sailors, like a couple of monkeys.

"I am up to the top," said Jack.

"And so am I," said Joe.

Jack pulled out a knife from his pocket. So did Joe.

Dick! slick! went Jack's knife. He cut through the rope over his head, and down he fell, and broke his pate on the stones at the bottom.

"Oh, crickee," groaned Jack, at the bottom; who could have thought that!"

"What a stupidhead you are," cried Joe at the top. "You should have done as I do."

With these words he cut the rope close under his feet. Down it fell, and left him hanging by his two hands at the top.

"Oh, crickee!" cried Joe, at the top; who could have thought that!"

"What a stupidhead you are," groaned Jack. "You will have to hang there until morning."

And so he did, and made his arms so stiff that he could not move them for a week.

It was a sad night for the two clever sailors. They cried, and groaned, and prayed, and said bad words until morning.

Then Jack was taken off to the hospital, and Joe taken off to prison.

---

In those good old times when Dicky Ricker was Recorder of New York, a man by the name of Wilson was taken up on the charge of stealing spoons. He had no council to defend him, but Mr. Graham, getting an opportunity to have a word with him in private, agreed to get the fellow acquitted for ten dollars. The lawyer told him not to say a word but 'spoons' to all inquiries put to him. Wilson was arraigned.

"Have you any counsel?" the Recorder now asked.

"Spoons," said Wilson.

"Have you any counsel?" the Recorder demanded, still louder.

"Spoons!" replied Wilson.

Mr. Graham interposed:

"Your honor perceives that this man is a fool, and by no means is he in a fit state of mind to be tried.

The clerk put the usual question, "guilty or not guilty?" to which the prisoner steadily answered, "Spoons."

The Recorder asked what the man was up for, and finding that it was for stealing a few spoons, and thinking the fellow was only half witted, told him to go. Graham followed him out and demanded the ten dollar fee.

"Spoons!" said Wilson, and to all the lawyer's demands he answered only "spoons."

---

Matrimony is—hot cakes, worm beds, comfortable slippers, smoking coffee, round, red lips, kind words, shirts exulting in buttons, redeemed stockings, bootjacks, happiness, etc.—Single-blessedness is—sheet-iron quilts, blue noses, frosty rooms, ice in the pitcher, unregenerated linen, heelless socks, coffee sweetened with icicles, gutta-percha biscuits, rheumatism, corns, coughs, cold dinners, colics, rhubarb, and any amount of misery.

---

A physician walking out with a friend of his said to him, "Let us avoid that pretty little woman you see there on the left. She knows me, and casts on me looks of indignation. I attended her husband." "Ah! I see; you had the misfortune to despatch him." "On the contrary" replied the doctor, "I saved him."

---

PRENTICE'S LAST.—Almost the last squib of the late George D. Prentice was the following: "It is understood that Butler would have been a candidate for the Spanish throne if the crown jewels hadn't already been stolen."

### SUNDAY READING.

God has three houses—one for instruction, another for correction, and a third for destruction.

If you have been tempted to evil, fly from it; it is not falling into the water, but lying in it that drowns.

Time borders upon eternity. It requires but an instant to make passage from one to the other.

PRAY AND WAIT.—While Father Hyacinthe was in this country, a friend, alluding to the peculiarity of his present status, asked him, "Under these circumstanecs what are you going to do?" His reply was, "I am going to pray and wait. It would be difficult to conceive a more beautiful or a more evangelical answer, or a state of mind more fitting, under peculiar exigencies. These two things,—to pray and to wait, seem to embrace our whole duty as intelligent and dependent beings, whose wisdom and help come only from God. And we thank Father Hyancinthe for so valuable an apothegm, so concisely expressed and so full of truth.—*Reflector.*

Of the few explicit statements made about heaven, there is nothing more beautiful and satisfying than this—"There shall be no night there."—There is much night here. So often the shadows come down over us, and shut us in like a shroud! So sombre grow the evenings, an so few the stars! It must be a radiant country, where it is daylight forever and forever.—"Neither sorrow nor crying."—Nights bring sorrow, frequently. Sorrow, makes night wherever sorrow comes. Many are the mornings bright and golden which have turned into the darkest night ere the noontime.—Thank God, all ye sorrowing ones, that there is coming a morning, which shall be dimmed by never a cloud! which shall never glide into evening! which shall shine on through ages of eternity unchanged, unchanging.

"DOUBLE UP YOUR EYES."—A little boy of perhaps two years, was kneeling beside his mother, one morning, while his mother was engaged in prayer, and getting into some mischief, his mother opened her eyes and gave him a look of reproof.

"Double up your eyes mamma; double up your eyes," said the little fellow.

He knew it was wrong to play during prayer time, and he did not wish his mother to see him. If her eyes were closed he imagined it would be all right.

My friends, is this little boy the only one that does wrong, and imagines it is all right, if no person sees him?—Ah! many there are who forget there is *One* who always sees them. God's eyes are always open. He sees the bad as well as the good. Remember, then, that although mamma, and all other persons may "double up their eyes," God's eyes are never shut.

IS THE BIBLE THE WORD OF GOD? 'The Bible the word of God? No!" says a young sceptic, who has been reading an infidel book. "No! it is an invention of men."

But the Bible claims to be the word of God, does it not?

"Yes; the men who wrote it pretend that they 'spoke as they were moved by the Holy Ghost,' and that what they said was a "Thus saith the Lord."—But that was only a cunning deception in order to make men the more readily believe it."

If the Bible is not what it claims to be, it is, you think, an imposture, and its writers were deceivers and liars?

"Yes, this is what I believe!"

Good men would not lie and deceive, would they?

"Of course not."

Then the Bible you are sure could not have been written by good men?

"I feel certain it was not."

And if not the work of good men, it must be the "invention" of bad men!

"I believe it was."

Now answer me candidly does the Bible condemn sin, and threaten bad men with punishment?

"Yes."

Does it forbid and condemn lying and deception?

"Yes."

Does it declare that liars shall perish; that Annanias for lying was struck dead; and that false prophets who speak deceit in the name of the Lord, and all who love and make a lie shall be shut out of the Kingdom of Heaven?

"It does."

And would bad men—false prophets, deceivers and liars, make a book that condemns their own sins, and threatens themselves with everlasting punishment?

"They would not be likely to, certainly."

Then the Bible could not have been written by bad men, could it?

"I must admit it is not easy to see how it could."

If then as you admit it could not be the "invention" of bad men—because they could be guilty of an imposture, who else could be its author but God? And if it is God's Book, why not believe it, and obey it?

The political contest in New Hampshire grows hot. A secret organization known as the "Labor League," has been formed, it is said, as an offset to the labor reform movement.

A grave in Independence, Ohio, was robbed a few nights ago. It is dangerous to bury anybody within a thousand miles of Cleveland, if the interment is intended to be permanent.

A man in Cincinnati a few days ago suddenly lost the sight of one eye, without any premonitory symptoms. To all outward appearances the eye is as good as ever, but the sight is entirely gone.

The pretiest girl in California rises every morning at 6 o'clock, and milks three cows before breakfast.

### THE LADIES' COLUMN.

White muslin dresses and tunics remain popular for balls.

Fashions has brought the long chains in. Necklets may have three lockets instead of one.

Wyoming offers to send Anna Dickinson to Congress if she will come out there and live.

Bodices are trimmed either with garbes of lace insertion or by a rich berthe of the same material, cascades of lace falling over the sleeves.

Ribbons for sashes are of unusual width, and offer a novelty in being double-faced, these and poignets of velvet, trimmed with galon d'or are in great request.

New York society is in a flurry about an approaching wedding which involves more beauty, fine linen, greenbacks and presents than anything in its previous experience.

Collars and collarettes are worn more or less large. Those of English lace form points or double ruffles in front. Others of old point forming collarette and ruffles have a good effect.

Trimmings of lace are now a perfect furore and used in every form and application. Lace is worn elaborately on almost every kind of dress, and when not sewn on takes the form of tunics, jabots, collars and sleeves.

In Paris a new style is to have a scarf of the same material as the dress, draped across the back of the skirt—the upper edge often fulled as though it was a skirt, and festooned in the centre of the back and at each side; to increase the size.

During a play of forfeits, at Mississinnewa, Indiana, a young lady was condemned to kiss a hero, but she refused. Being pressed to pay her forfeit like a little—woman, she exclaimed: "No, I'll never kiss any man who smells like a still house."

Oysters for Lunch: Take a fine oyster, wrap it thinly with bacon, fastening it with a little skewer. Lay it on a piece of toast, and put it into a Dutch oven or a hot stove oven a very little time. Prepare as many in this way as desired.

Samp: Soak a quart of cracked Indian corn over night, and put it on the fire first thing after breakfast, with three pounds of beef, not too salt, and one of pork. Cover with water, and let it cook slowly five hours, being very careful not to let it burn.

Cream pie: One pint of good sweet cream, one egg, one tablespoonful of flour, one pinch of salt, flavor with lemon and sweeten to taste. Beat the eggs light, then add the flour and stir in the cream. The above is for one pie in a baking dish. Put lemon on the sugar.

There is not any startling change in the arrangement of the front hair. It is neither waved, crimped, or frizzed, or turned back in the Pompadour roll. The only coiffure particularly new is made by parting the hair on the side, when one side is waved, the other slightly raised.

Sponge Cake: No better receipt for ordinary use can be obtained than the following: One cup of sugar, one cup of sweet milk, one egg, two teaspoonfuls of cream of tartar, one third cup of butter, and two cups of flour. Flavor with one half teaspoonful of the essence of lemon.

Among the most elegant novelties which have made their appearance is the satchet, or perfumed petticoat.—Morning gown and perfumed dresses are also in style. The petticoat, which is made of a light suit of flannel, is lined with silk, quilted, and scented with violet powder, like a handkerchief or glove case.

An Elizabethian plume worn on the top of the head, a feather aigrette at the side; or else flowers to match those on the dress, are fashionable headdresses. The hair if so elaborately arranged with puffs across the head, melon puffs high at the side, chatelaine braids, and light feathery curls low at the back, that there is no room left for ornament.

Isinglass Jelly: Put one ounce of isinglass and half a drachm of cloves into a quart of water. Boil it down to a pint, strain it upon one pound of loaf sugar, and when cold add a little wine, when it will be fit for use. A very nourishing beverage may be made by merely boiling the isinglass with milk, and sweetening with lump-sugar.

Venison steaks: Cut them from the neck, season them with pepper and salt. When the gridiron has been well heated over a bed of bright coals, grease the bars and lay the steaks upon it.—Broil them well, turning them once, and taking care to save as much of the gravy as possible. Serve them up with some current jelly laid on each stake.

We learn from a reliable source that instead of one chignon, two are now frequently worn in Paris; and furthermore that there is a prospect that triple chignons will be introduced.—"Sufficient for the day is the evil thereof." We don't intend to contemplate the horrible prospect of three chignons. That two are already worn excites our amazement to its utmost capacity.

How to make tough chickens tender: This very desirable object can be accomplished very easily, as the following extract from the *Journal D' Agriculture* will show: If a chicken is to be killed and immediately cooked, there is generally great fear that it will be tough, and therefore non-eatable.—In a case of this kind take a tablespoonful of vinegar, and make the chicken swallow it about an hour before killing, and you will find it as tender as though it had been killed and kept many days.

### FARMERS' COLUMN.

*The* best fertilizer for tomatoes is well-rotted stable manure on poor soils, on rich soils no manure.

*Sore Mouths.*—For sore mouths, either in human beings or animals, no application is equal to tannin, which should always be kept in the house for that purpose. A little of the powder sprinkled on the inflamed or sore spots will cure almost immediately.

No farmer should build a house, or make any other improvement, without ascertaining beforehand the probable cost of the same. The preliminary counting of the expense of everything is essential to all agricultural thrift and he who neglects it, will be apt to discover his error after it is too late.

*An* Ohio quince grower has been very successful for two years past with his fruit. His treatment of the trees is very simple: He spades the ground of his orchard every spring, and scatters a peck of coal ashes around each tree. He finds the salt the best manure on the quince, and applies one quart to the ground under each tree, after the soil has been spaded, and another quart when the quinces are about half grown. Last year he sold three hundred bushels of quinces from his orchard of the three-quarters of an acre.

*How to Obtain Rich Milk.*—If you desire to obtain rich milk and in abundance, give your cows three times a day a mixture of salt and water, slightly warmed, in the proportion of one pint of salt to two gallons of water. In practising this operation regularly, you will remark that your cows will give immediately, from the effects of this drink, twenty-five per cent. more milk than before; and at the same time they will become attached so strongly to it, that unless very thirsty will refuse clear cold water. A bucketful, morning, noon and night, will be sufficient.

*It* has long been a practice among farmers to commence pruning apple trees in February, mainly, we suppose, because there is leisure time.—There are some reasons why this should not be done. There will not be sufficient action in the tree to harden the surface, where a limb is taken off, before the sap ascends in the spring.—When this action does take place, the sap flows out and spreads over the surrounding bark, and by some chemical action which takes place in it, is changed to a poisonous fluid, which greatly injures the tree. It is very unsafe to prune before the middle of June.—Soon after the leaves fall in autumn, and in mid-summer is the safe time to do this work.

*Weaning Calves.*—We generally take the calf from the cow at the end of twenty-four hours, and fasten it with about six feet of rope in a box stall;—then milk the cow, and standing off far enough for the calf to reach you, wet your finger with milk, put it into its mouth, and gently lower your hand until it is immersed in the milk in the pail—let it continue to have the finger until you have given it enough. The next time dip the finger in the milk and place it in its mouth in contact with feed, gradually withdraw your finger and the thing is done. It may be necessary to repeat this the third time. The secret is that you must stand just far enough so the calf can just reach the pail of feed, as the rope may be taut, and hence he cannot reach you or butt over or spill his milk or feed. We have practiced this for a number of years, and have no trouble to teach calves to drink.—*American Stock Journal.*

*Fining Manure.*—A very successful English gardener lays a good deal of stress upon what he calls "fining" manure, and attributes much of his success to this process. By "fining," he means, breaking up the lumps, tearing in pieces the long strawy parts, and bringing all into such a fine state that it can be thoroughly mixed with the particles of the soil. Having broken it up he mixes it with ashes, leaves, saw dust, tan bark, and all the refuse of his garden, laying it up in thin layers. When it has become partly decomposed, he overhauls it, turning it over with the shovel, and making it one homogeneous mass. Farmers may learn a lesson from his example. It is plain that coarse, lumpy manure cannot benefit as much as that which is broken up and equally diffused through it. Liquid manure and guano act efficaciously, for this, among other reasons, that they are minutely divided among the particles of the earth.

*The Situation of an Orchard and the Soil.*—The situation of an orchard should be one that has the advantage of a free circulation of air, and is exposed to the south, with a slight inclination to the east and south-west.—When the situation is low and close, the trees are very liable to become mossy, which always injures them, by closing up the pores of the wood; they are also more liable to be affected by blight. Although having an orchard closely pent by many trees, etc., is injurious, nevertheless, a screen of forest-trees, at such a distance from the fruit trees as that the latter will not be shaded by them, is of very great service in protecting the trees in spring from severe winds.

A good, strong, loamy soil, not too retentive of moisture to the depth of thirty inches, or three feet, is most suitable for an orchard. Great attention must be paid to substratum, as the ground must be well drained; for if the top soil be ever so good, and the bottom wet, it is very rarely that the trees prosper many years—they soon become diseased and to decay. ### DEMOCRATIC COUNTY CONVENTION.

Pursuant to public notice, the Democratic County Committee met at the Gazette office, in Bedford, on Monday last, and adopted the following resolutions:

*Resolved*, That it is the sense of this Committee that a County Convention should be called for the purpose of taking into consideration the propriety of altering and revising the rules of the Democratic party of Bedford county governing nominations.

*Resolved*, That such Convention is hereby called to meet at the Court House, in Bedford, on TUESDAY EVENING, March 1, (Special Court) and that each election district shall be entitled to one delegate in said Convention.

The Democrats of the several districts of the county are, therefore, hereby notified to meet at their respective election-places and choose one person to represent their respective districts in said Convention.

By order of the County Committee.

### SNAP JUDGMENT.

The so-called "Republicans" who inhabit Bedford county, held a meeting at the Court House, on Tuesday evening of last week, and adopted a series of resolutions from which we take he following:

*Resolved*, "That we cordially approve of and endorse the course of our member of Congress, Hon. John Cessna, and especially his advocacy of protection to American laborers against the competition of foreign paupers, and that we recognize in him an able and faithful defender of the principles of true Republicanism, and we do hereby recommend him to the Republicans of the District for renomination."

To the cordial approval and endorsement of the course of "our member," by these cringing lick-spittles, we take no exception. We do not question their right to swallow their own saliva or even print their kisses where our member is wont to scratch. Nor does their approbation of the conduct of Mr. Cessna as the representative of the people of the Sixteenth Congressional District, surprise us in the least. They are in the habit of "cordially" approving all the outrageous acts performed by the radicals in Congress, and as "our member" is a mere cipher in the grand total of those miserable miscreants, it is not at all astonishing that they found no trouble in endorsing his course.

But how comes it that this meeting, in which not one half of the election districts of the county were represented, assumes the right to dictate to the "Republicans" of the entire county, who shall be their candidate for Congress at the next election? By what authority does this irresponsible gathering undertake to "recommend" Mr. Cessna as the choice of the "Republicans" of the county? Is not this unwonted action intended to forestall an expression of opinion on the subject of the Congressional nomination by those "Republicans" who oppose Mr. Cessna's re-nomnation and who mean to be firm and consistent in their opposition to the contemptible little thimble-rigger? Is it not a judgment taken in advance of the action of the party in the county before the reasons for and against the re-nomination of Mr. Cessna could be properly canvassed by the the rank and file? A little ring of petty politicians who rule the organization in this county, meet together in the court room, adopt resolutions prepared beforehand by one of their number, and lo! John Cessna is formally recommended by the "Republicans" of Bedford county for re-nomination as a candidate for Congress! There is no necessity for a County Convention, or a primary election. The work is done. The ring have saved the "Republicans" of the county all trouble on that score.

We do not expect to see any resistance to this pre-judgment of the case in behalf of Mr. Cessna. There is hardly a single prominent "Republican" in the county, who will dare to lift his voice against it. There are some who talk a great deal, but when the time for action comes, their courage, like Bob Acres, oozes out at their fingers' ends. They are all the slaves of Cessna and his little ring and they are so completely cowed that few of them dare to attempt to break their shackles. What the Democrats indignantly resented, at the hands of this man Cessna, when he was of their number, the "Republicans" meekly submit to and hypocritically endorse. Is it a matter of wonder that the "Republicans" are distanced in this county from year to year when it is remembered that they enter the races, annually, with Cessna astride of their backs as Jockey?

---

CESSNA'S ring expect to capture the colored vote, to employ African fingers to rake their chestnuts out of the fire, but they have not yet concluded to give that element representation on their county ticket. The Associate Judgship may, however, yet be tendered by them to one of their expected allies.

### MORE HUMBUG.

The resolutions adopted by Cessna's little ring on Tuesday night of last week, declare among other things,

"That the Republicans of Bedford County, in Mass Meeting assembled, do hereby express their hearty approval of the administration of General Grant and point with pride to the $80,000,000 of the public debt paid in ten months, as the best proof of his faithfulness to the party pledges of economy, and as the most triumphant refutation of the copperhead charges of extravagance."

This boast of the supporters of Grant's administration, has been met so often and has been so completely contradicted, that we had thought no one could be found so brazen as to revamp it. The public debt has not been diminished. It is greater to-day than it was one year ago. True it is that some eighty millions of bonds have been taken up by Secretary Boutwell, *but they have not been cancelled* and there is no assurance that they will not be re-issued. In making up the statement by which the secretary attempts to show a decrease of the public debt, *the redeemed bonds are set down as assets in the Treasury!* What would be thought of an assignee who would claim that the promissory notes given by the assignor and redeemed by him before the assignment was made must be considered as assets?—He would be laughed out of court as the shallowest of imposters.

The trickery by which Boutwell & Co. are attempting to deceive the people in regard to the public debt, is equally ridiculous and contemptible. Let them answer the charge made by Dawes, of Massachusetts, in Congress, the other day, (who is a radical of the straitest sect) that the appropriations demanded by Grant's administration for the present year exceed the entire expenditures of Andrew Johnson's last year by nearly Fifty Millions of Dollars, instead of trying to blindfold the people with lying declarations concerning a decrease of the public debt.

---

THE virtuous Cessna ring which assembled at the Court House, on Tuesday night of last week, resolved that the Democrats are responsible for what they style the mismanagement of the "Poor House finances," &c. Who, but the radical Judge Rowe, granted the injunction against the construction of the new Poor House? Who, but a radical legislature, gave us the law under which we have arrived at the present condition of things? Is the President Judge, who had as much to say in regard to the erection of a Poor House as any body else, a Democrat? Are the Grand Jurors whose action is a part of the record in this Poor House question, all Democrats? It does not become the corrupt Cessna ring, who feed and fatten on the taxes of the people wrung from them by Federal revenue officers, to put on any airs about the management of the county finances. Let them sweep before their own shanty.

---

THERE is fun ahead. Democrats will go to the election next fall for the special purpose of observing how the Anti-Fifteenth Amendment "Republicans" will look alongside of their colored brethren.

---

IF there were not quite so many radical judges, nor so many radical courts, nor so many radical legislators, the expenditures of the county would probably be somewhat lighter. Let Cessna's ring gnaw that file awhile.

### THE RIGHT TRIUMPHANT.

The Findlay-Scull contested election case, involving the right to the seat in the Senate for the Twentieth District, was finally decided last week in favor of Mr. Findlay, the sitting Senator. The report of the majority of the committee drawn to try the case, which declares Mr. Findlay entitled to the seat, is signed by Senators Brown, Randall, Lowry and Linderman, Senators Brooke, Osterbout and Allen, although bound to conceed the fact that the investigation shows the election of Findlay, intend presenting a minority report. Their object is, doubtless, to except to some of the rulings of the committee, which they resisted at the time they were made.

The confirmation of Mr. Findlay's right to the seat, is a signal triumph of justice and fair-dealing over trickery and artifice. We have frequently exonorated Mr. Scull from that peculiar blame which attaches to the attempts of designing politicians to nullify, by special pleading or the straining of the law, the deliberately expressed will of the people. We still believe that he was forced into this contest by certain parties who expected to profit politically and pecuniarily by his resignation of the Federal office now held by him, which would, of course have followed his admission to a seat in the Senate.

The defeat of the foul intrigne of which this case was the ground-work, affords an occasion for special rejoicing. The honest people of the Sixteenth Congressional District particularly will be gratified to know that John Cessna will not have it in his power to barter the office of Assessor of Internal Revenue for that District for votes and influence to secure his re-election to Congress.

We cannot leave this subject without according to the committee before whom this case was tried, the praise so justly due its members. Especially do we feel it our duty to commend the dignified impartiality with which Senator Lowry acted throughout the the investigation. Although an extreme radical in politics, he resisted with Roman firmness every attempt made by the counsel of Mr. Scull to take unfair advantage, whilst at the same time, he insisted with equal determination, that the contestant must be allowed every opportunity afforded by the law to make good his allegations. To the independent and impartial attitude occupied by Senator Lowry the people of Pennsylvania are largely indebted for the beginning of a wholesome reform in the trial of contested election cases. The Scull-Findlay case is the first in the history of the last ten legislatures in which a committee containing a radical majority decided in favor of a democrat.—*Patriot.*

### Majority Report on the Scull--Findlay Case.

Mr. Brown, on behalf of the majority of the committee in the case of Scull vs. Findlay, presented the following report:

"The Twentieth Senatorial district is composed of the counties of Somerset, Bedford and Fulton, and at the election for said district for Senator on the 12th day of October, A. D., 1869, Hiram Findlay received 5,925 votes, and Edward Scull received 5,902 votes, therefore Hiram Findlay, having 23 majority, was accorded a seat in the Senate. The election is contested by Edward Scull, on the ground of fraud and illegal voting, claiming that he, and not the sitting member, is entitled to the seat.

"Your committee was drawn on the 18th day of January last, and sworn 'to try the matter of the petition, and to give true judgment thereon according to the evidence.' They met on the same day and organized, and have met daily since, as required by law.

"The contestant was given the most ample opportunity to prove the charges of fraud alleged in the petition, according to the rules of evidence, and the whole force and power of the State was tendered him to compel the attendance of witnesses for this purpose. The committee offered to go to Johnstown or elsewhere within the Commonwealth, if required by him, to hear evidence of fraud or of an undue election, but the contestant did not produce any witnesses to make out the allegations of fraud, or that the election was undue.

"Your committee examined a number of witnesses on the charge of illegal voting, and report that the contestant made out two illegal votes as having been cast for the sitting member in the county of Fulton.

"The sitting member declined to produce witnesses to sustain the specifications of illegal voting for the contestant, as set forth in his answer, because the contestant failed to sustain the charges and allegations in the petition, and on the grounds of economy to the State.

"Your committee have therefore found the following:

| | |
|---|---|
| Returns of election show that Hiram Findlay received | 5,925 votes. |
| From this deduct illegal votes cast for him in Fulton county | 2 votes. |
| Total | 5,923 votes. |
| Returns of election show that Edward Scull received | 5,902 votes. |
| Majority for Findlay | 21 votes. |

"Your committee report that Hiram Findlay, having received a clear and legal majority of 21 votes for Senator in said district, is therefore entitled to the seat.

R. S. BROWN.
WM. M. RANDALL,
MORROW B. LOWRY,
R. J. LINDERMAN,"

On behalf of the minority, Mr. Brooke asked and obtained leave to present a minority report at some future day.

The annual report of the Pennsylvania R. R. just published shows the earnings for 1869 to have been $17,250,811, and the expenses, $12,203,267,—net earnings, $5,047,544.

### CONGRESSIONAL.

WASHINGTON, Feb. 15.

In the Senate yesterday, Mr. Carpenter reported from the Judiciary Committee a bill to increase the salary of the Chief-Justice to $12,000 per annum, and of the associate Justices to $10,000 each. Mr. Morton introduced a fresh bill "to enforce the fifteenth amendment." The Mississippi admission bill coming up in order, Mr. Chandler moved to postpone. The vote was 24 to 24, a tie, and the President of the Senate casting his in the negative, the bill was considered. Mr. Carpenter made a strong speech against Morton's outrageous doctrine that Congress has a right to intervene in the internal affairs of a State after its admission. He said that such a proposition was enough to "make Webster turn in his grave." Mr. Morton, in response, charged that Mr. Carpenter was advocating the exploded heresy of State rights, and that the enunciation of his opinion was enough to make the dry bones of Calhoun rattle with joy." Without disposing of the bill the Senate went into executive session. In the house of Representatives Mr. Dawes introduced the New York and Jersey shore (North river) tunnel bill, and Mr. Deweese (carpet bagger) a bill to "provide homes for the homeless in the late Slave States" Mr. Loughridge, an Iowa Radical, offered a resolution declaring it to be the opinion of the House that the business interests of the country require an increase in the volume of circulating currency, and instructing the committee on Banking Currency to report as soon as possible a bill increasing the currency to the amount of at least $50,000,000. On a motion to lay the resolution on the table, the House voted ayes 78, nays 93—which Mr. Ingersoll triumphantly remarked was a healthy indication (for the inflationists). The morning hour having expired, the resolution went over till next Monday. Mr. Morgan, of Ohio, introduced a new currency bill as a substitute for that of Mr. Sherman. General Logan followed with a speech in support of a series of resolutions favoring the recognition of the Cubans as belligerents. The resolutions were referred to the Foreign Affairs Committee. The House in Committe then discussed the Appropriation bill, getting through two pages by the time of adjournment.

WASHINGTON, Feb. 16.

In both Houses of Congress yesterday long speeches were the feature. The Franking Privilege bill was discussed with a speech from Morrill of Vermont, and the Mississippi bill with speeches from Messrs. Bayard and Davis. The latter read three mortal hours from manuscript, and when he had concluded, the Senate adjourned.

In the House of Representatives the resolution requesting information from the President relative to the imprisonment of American citizens in British prisons, after a debate between Messrs. Cox, Swann, Banks, and Cavanaugh, was passed. About a dozen members asked and obtained leave to have speeches on the same subject printed in the *Globe*. The contested election case of Van Wyck against Greene was taken up and discussed, but without a vote the House adjourned.

WASHINGTON, Feb. 17

In the United States Senate yesterday the House bill to provide artificial limbs for disabled soldiers was taken up and amended by extending its provisions to the soldiers of the Mexican war and war of 1812. The Senate then discussed the Mississippi bill until the hour of adjournment. Speeches were made by Senators Yates, Edmunds, and Morton, in favor of continued exactions upon the South; and by Stewart, Willey, and Fowler, in behalf of the admission of Mississippi without further conditions. Mr. Stewart remarked that he did not believe Congress had any constitutional power to make conditions. In the House of Representatives Mr. Cullom presented a petition from a number of repenting citizens of Massachusetts requesting that the State be remanded to a territorial condition on account of its secession heresies in 1812. This palpable hit created laughter, and the paper was referred to the Reconstruction Committee. Mr. Cullom, from the Committee on Territories, reported adversely on the bill for a Territorial government for Alaska. Mr. Dawes introduced a joint resolution requiring the President to declare and maintain a strictly impartial neutrality in the contest now existing in Cuba, which was referred to the Committee on Foreign Affairs. The House then went into the consideration of the Greene-Van Wyck contested election case, and by a party vote—119 to 51—turned out Greene (Dem.), the sitting member, and gave his seat to Van Wyck (Rad.), who was not elected. This infamous partisan decision was expected, and may be expected, in the remaining twenty-one contested cases. Mr. Stiles (Dem.), of Pennsylvania, fitly denounced it as an outrage, and thought the House had better adjourn at once, and was checked by the Speaker with the remark that his language was "unparliamentary." In the meantime the members, as if ashamed of themselves, had hurried away, leaving the House without a quorum, and an adjournment necessarily followed.

WASHINGTON, Feb, 18.

The Mississippi bill, with all the arbitrary features, passed the Senate yesterday. The closing discussion was carried on by Senators Sumner, Drake, Sawyer, and Cameron, and the case for "Mississippi without handcuffs" was summed up by Mr. Trumbull, but Mr. Willey's amendment to repeal the conditions in the Virginia bill was first voted down—23 to 36—and then the amendment of the Senate committee simply declaring Mississippi entitled to representation, by 27 to 32. Among the Radicals who voted with the Democrats in the affirmative were Senators Conkling, Nye, Trumbull, Fenton, and Williams. The bill was finally passed by a party vote—50 to 11 Mr. Drake introduced a new bill tampering with the naturalization laws. In the House of Representatives, the bill to prohibit polygamy in Utah was considered, and Mr. Cullom, the father of the measure, made his speech, denouncing the Mormons. The bill went over by the expiration of the morning hour. The House then went into committee on the Legislative Appropriation bill. An amendment cutting down the extravagant expense for private secretaries to the President was voted down. Mr. Stiles showed that the actual expenses of the White House were $27,000 more under Grant than they were the last year under Johnson. The committee made progress through two pages of the bill, but rejected all amendments reducing the items under consideration.

### NEWS ITEMS.

NEW CASTLE, Del., Feb. 15.—*Attempted Outrage by a Negro.*—Yesterday, half a mile from the Dover depot, a negro attempted a vile outrage on a young lady. She made a desperate resistance, and her screams summoning assistance, the negro fled without accomplishing his object. The intended victim, Miss Frick, sixteen or seventeen years of age, lately removed from Pennsylvania. She is badly hurt.—Two arrests have been made, but neither of them was the right party.

The Paris authorities have been disposing of the radicals who participated in the late riots. Gustave Flourens was sentenced to six months imprisonment and a fine. M. Deveure, the printer of *La Marseillaise*, for publishing false news, to two months, all others convicted of carrying arms to three and four months, and the fellows who only uttered seditious cries to fifteen and thirty days. The editor of the *Reveil* gets thirteen months for "false news." Nevertheless, the irreconcilable press is as insolent as ever. The *Rappel* publishes a letter from Victor Hugo, in eulogy of Henry Rochefort, and calling him "a force for the future."

Sanguinary executions of Cuban prisoners in cold blood continue in Cuba. Thirteen young men, most of them of good families, were shot last week. The Captain-General confiscated the property of seventeen Cubans and one American. The American is General Thomas Jordan, whose property in Cuba must be difficult to get hold of. More skirmishing in the interior is reported.

The Mexican insurrection is prospering. General Escobedo, the commander-in-chief of the national army, instead of fighting the insurgents as he threatened, fell back to Guanajuato. He has been superseded by General Alatorre. The Juarez government appears to be in a panic, 4,000 men have been impressed into the army. It is suggested among the revolutionists to make General Garcia de Cadena President, with a new seat of government in the insurgent district.

An interesting insurance case has just been decided by the law courts of Maine. The plaintiffs were H. W. Laney & Co., of Portland, whose store was insured by the Phœnix Insurance Company, of New York, for $3,000.—The store was burned in the great fire of 1866. The company refused payment on the ground that the store was situated upon leased land, and the agent of the company had omitted to state the fact in the policy. The court decided in favor of the plaintiffs, awarding the full amount of the insurance, with interest from 1866, and costs.

Woman Suffrage, it appears, then, is not to form the subject of the Sixteenth Amendment. Mr. Ingersoll, of Illinois, has introduced an amendment to the Constitution, to be called the sixteenth, which declares that Congress shall have the power to issue United States notes and make them a legal tender for debts. Should one of the framers of the Constitution rise from the dead he would scarcely recognize the instrument.

Parties wishing the prescription, will please address REV EDWARD A. WILSON,

Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, will cure consumption, Liver Complaint, and Dyspepsia, if Taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach; the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 25 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

There are thousands of kegs of 'Glade butter' unsold in the eastern markets. Much of the stuff that will have to be sold for "grease," at a great sacrifice to the producer, would have been used for home consumption, if it could have been bought at a reasonable price.

The Fulton *Democrat* has arisen from its ashes greatly improved in appearance. It has added four columns of reading matter, and is now a paper of which the gallant democracy of "little Fulton" may be proud, and one which merits and should receive their hearty support.

St Valentine's Day was a failure hereabouts. We did not see a single missive, comic or sentimental. Sighing maidens and love sick swains neglected to transmit their tokens of love to each other. Perhaps the miserable weather of Monday dampened their ardor and drowned their affections. Who knows?

ADMITTED.—J. M. Reynolds, Esq., who read law in the office of J. W. Dickerson, Esq., was, last week, on motion of O. E. Shannon, Esq., admitted to practice in the several courts of this county. The committee appointed to examine Mr. Reynolds speak in very flattering terms of his qualifications to enter the practice of the law. We wish our young friend every success in his profession.

LICENCES GRANTED.—The following tavern and restaurant licences were granted last week by the Court:

*Taverns*—Michael Ott and John P. Weaverling, Bloody Run; O'Donnell & Manly, Bridgeport; William Weimer, Clearville; Isaac Mengel, Bedford; William M. Pearson, Woodberry; Henry Rose, Centerville; Levi Manges, Juniata.

*Restaurants*—John Harris, Jacob Barnhart, A. B. Carn, Bedford.

THANKS.—We are under many obligations to those of our subscribers who have come to our relief by paying the amount of subscription due us. There are, however, a great many to whom bills have been sent, who have not yet responded to our appeal. Now in order to give such the advantage of the reduction which we promised those who would promptly pay their indebtedness, we have concluded to extend the time to Saturday, the 12th day of March, next. All who pay on or before that date will be entitled to the reduction noted on the bills sent. Again we tender many thanks to those who have paid us, and hope that those who have not, will see the propriety of doing so soon.

THE WEATHER.—The weather for the last week has been as changeable as the hues of the chameleon. Rain, then fair weather, then snow and a thaw, and a freeze, gave us all sorts of weather. On Sunday last we had an old fashioned snow storm, and that night and on Monday and Monday night we experienced the coldest weather of the season. Gewilikens! how cold it was! Of course, ice storers were delighted, and what made others shiver, proved comfortable to them. As we write—Tuesday—everybody is busy as bees, gathering the ice crop for next summer's warm weather. Those who imagined they had a monopoly of the refrigerating substance, have learned how easily the clerk of the weather can knock their calculations into smithereens. Ice-cool lemonades will not be such an expensive luxury after all during the heated term.

"OUR member" has been heard from at last. He announced to his handful of admiring constituents on Tuesday night of court, that, "I—" *ego*, me, myself—"had the honor of proposing an amendment"—think of it! an *amendment*! Which said aforesaid amendment is to do the business, as declared by the author "his own self." Copyright secured according to the laws of Congress in such case made and provided. If the before mentioned, aforesaid said amendment becomes a law—and what loil mind dare doubt it?—old women are to be thrown into incurable hysterics, and timid youths, upon attaining majority, will instinctively jump into the radical harness and vote for "our member," and "sich;" all by virtue of the wonderful amendment aforesaid. Cracky! what fun we loil fellows will have!

CESSNA'S POW-WOW.—The radical meeting on Tuesday night was a fizzle in the fullest and broadest sense of the word. "Our member" made a speech, and it was the same old "Mother Hubbard" that we have listened to a hundred times. All the rodomontades of Cessna are as similar as two drops of water. The same ranting, blustering and blowing; the same prating of loilty and of deeds of valor in which he, like Falstaff, has slain his scores of "men in buckram," is given to his audience. On the occasion of Cessna's last harangue we imagined ourselves in the veritable china shop, with the infuriated Taurus tossing demolished crockery-ware about our devoted head, and we were obliged to give our nose an impulsive twitch before we were able to realize the situation. After all it was but "our member," tickling the fancies—what a pleasant phrase!—of the "trooly loil" to induce them to renominate him for Congress. "Only this and nothing more." O! how well does John understand the art of manipulating men into his support. How he subdues men and factions who dare attempt to oppose his political aspirations! Truly, he is monarch of all the radical camp. All things must be subservient to his aims and ends. In this respect alone has he great forte.—His loyalty is a myth, his patriotism a dream, but they are "a good enough Morgan till after the election."

It is not necessary to add that Cessna's resolution endorsing himself was "read and approved," by the few who bow the knee to this radical Baal. But the *people* will have something to say hereafter.

READING THE DEATH WARRANT.—The death warrants for the Huntingdon murderers have been prepared and read to the prisoners. The perpetrators of the inhuman crime have but few days more to prepare to leave this scene of action. The execution takes place on Wednesday the 9th day of March, next. The Huntingdon *Monitor*, says:—

About three o'clock Saturday afternoon, Sheriff Neely, in company with a few witnesses, visited the prisoners and read the warrants. Bodenburg was visited first. He seemed much moved during the reading and when the Sheriff had finished remarked:

"It is all right, Sheriff. I am willing to die. I am not guilty; I said this first and will say it last. If they hang me it is all right. It is against the Bible; I know what is in it." He was apparently much affected, and seemed to fully realize his terrible condition.

Bohner's cell was then visited and the warrant for his death read to him. At its conclusion he replied, apparently very unconcerned "All right." "All right." The Sheriff replied it is just three weeks from next Wednesday, when Bohner replied "I know it."

We understand that both the condemned have written a history of their lives, but as yet neither have given out a copy of it. We suppose the execution will not take place till one or two o'clock of the fatal day, and that but few will be admitted.

COURT PROCEEDINGS.—But few cases were disposed of at court, last week. The Commonwealth list was unusually small, which must be taken as a healthier condition of public morals. The Grand Jury was not organized until Monday afternoon, and, in the absence of the regular foreman, the Court appointed William Hartley, as foreman. On Tuesday the Grand Jury was dismissed. But two civil cases were tried by juries. The following cases came up in the Quarter Sessions.

Commonwealth *vs* Peter Kramer. Surety of the Peace on oath of Wm. Karns. Case heard and dismissed at the cost of Prosecutor.

Same *vs* George Troutman. Selling liquor to minors. Found Guilty. Motion for new trial filed and case continued to April Term.

Same *vs* W. W. Snyder. For. and Bas. Guilty. Motion in arrest of judgment and for new trial. Case continued till next sessions.

The following cases were tried in the civil list·

Ephraim Longenecker and Jacob S. Bossler *vs* the Township of Middle Woodberry. Appeal by Plaintiffs from Auditor's, settlement. Verdict for the Plaintiffs. Motion for new trial filed.

Sophia W. Mullin *vs* G. Shannon Mullin, *et al*, Executors of George Mullin, deceased. Jury find for Defendants.

AN ARTICLE OF TRUE MERIT.—"Brown's Bronchial Troches" are the most popular article in this country or Europe for Throat Diseases and Coughs, and this popularity is based upon real merit, which cannot be said of many other preparations in the market which are really but weak imitations of the genuine Troches.

### PERIODICALS.

The March "Riverside" gives for a frontispiece, another of Stephen's famous animal pictures, illustrating La Fontaine's fable of "The Cat, the Weasel, and the young Rabbit." A new series is begun, in "Pictures from Froissart,". Travel is illustrated by two papers—'On the Ice in the Baltic,' and 'Chile.' Some of the stories are 'How Little Patrick found his Way over the Sea,' 'Princess Eva,' and 'How the Captain came by a legacy.' The drollest thing is 'The Romaunt of the Sleepy Princess,' with its killing pictures, although Anne Silvernail's 'Little Quaker Artist' and her highly excited drawings will make households merry. Published by Hurd & Houghton, New York. $2·50 a year.

GODEY'S LADY'S BOOK.—The March number of this favorite ladies' magazine is on our table. The usual array of beautiful engravings appear in this number. Godey is in its fortieth year, but is as fair and lovely as a maiden at sixteen. No household should be without this splendid companion. Address L. A. Godey, Philadelphia, Pa.

PETERSON.—Peterson's Ladies' National Magazine for March has reached us, and is as interesting as any of its predecessors. The steel engraving, "The Morning Kiss" is a perfect gem. The colored fashion plate is superb, and the literary matter is excellent.—Address Charles J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

FOR DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

FOR LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

FOR DYSENTERY or DIARRHŒA, but one mild dose is generally required.

FOR RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

FOR DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

FOR SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
*For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.*

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

AYER'S
HAIR VIGOR,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

THE ONLY RELIABLE CURE FOR DYSPEPSIA
IN THE KNOWN WORLD.

Dr. Wishart's Great American Dyspepsia Pills and Pine Tree Tar Cordial are a positive and infallable cure for Dyspepsia in its most aggravated form, and no matter of how long standing.

They penetrate the secret abode of this terrible disease, and exterminate to it, root and branch, forever.

They alleviate more agony and silent suffering than tongue can tell.

They are noted for curing the most desperate and hopeless cases, when every known means fail to afford relief.

No form of Dyspepsia or Indijestion can resist their penetrating power,

DR. WISHART'S
PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained. It invigorates the digestive organs and restores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs. It dissolves the mucus or phlegm which stops the air passages of the lungs Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with positive assurance of its power to cure the following diseases if the patient has not too long delayed a resort to the means of cure:

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, &c.

A medical expert, holding honorable collegiate diplomas, devotes his entire time to the examination of patients at the office parlors. Associated with him are three consulting physicians of acknowledged eminence, whose services are given to the public free of charge.

This opportunity is offered by no other institution in the country.

Letters from any part of the country, asking advice, will be promptly and gratuitously responded to. Where convenient, remittances should take the shape of

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur player. in the city, as well as several celebrated pianists have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

THE WEEKLY WORLD,

a large quarto sheet, printed throughout in large type and published every Wednesday morning, has now the largest circulation of any weekly newspaper in the United States, with possibly, a single exception. Among its prominent features are:

1. Its very full and accurate market reports, embracing the Live Stock markets of New York, Albany, Cambridge, and Philadelphia; and New York Country Produce Market, and General Produce Markets of the country; and full reports of the New York Money Market. Each of the reports are complied with great care, and contain the latest quotations that can be obtained up to the time of putting the paper to press.
2. Its Agricultural Department, which contains each week articles on practical and scientific farming that are of great value to American farmers. A special feature of this department is a weekly summary of the condition of the Hop Markets at home and abroad.
3. A very full report of the proceedings of the Farmers' Club of the American Institute is printed in each issue of the Weekly World, the day after the meeting of the Club. By this arrangement the report appears in the Weekly World one week in advance of its publication in any other weekly paper.
4. A portion of the Weekly World is reserved for family reading matter, including original and selected stories, poems, waifs of humor, and extracts from books and periodicals.—Particular attention will be given to this department during the year 1870.
5. A special feature of the Weekly World is a carefully complied summary of the news of each week. It is made so complete that no one who reads it can fail of being well posted on all the important news of the day.

THE SEMI-WEEKLY WORLD,

published Tuesday and Friday, is a large quarto sheet, containing all the news published in the Daily World, with the exception of such local reports as may be of no interest to non-residents of New York City. Its market reports are as full as those of the Daily edition, and it contain, besides interesting literary matter, on Friday of each week a full report of the Farmers' Club.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,
which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and
CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK
never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. MIDDLETON'S
*ONDERFUL PAIN CURE*

A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffnes, of the Joints and all similar diseases.

This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture.

For assurance of its excellent properties, read the following certificates:

BEDFORD, May 8, 1869.

I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once, I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.

ELI M. FISHER.

BEDFORD, April 14, 1869.

Mr. W. W. Middleton,

This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst.,
